**Item No.**  
**North West Community Council**  
**November 17, 2014**

**TO:** Chair and Members of North West Community Council

**SUBMITTED BY:** Original signed  
\_\_\_\_\_  
Brad Anguish, Director, Parks & Recreation

**DATE:** November 4, 2014

**SUBJECT:** Jack Lake, Marsh Lake Sandy Lake Park Proposal  
\_\_\_\_\_

#### INFORMATION REPORT

#### ORIGIN

**MOVED by Councillor Outhit, seconded by Councillor Whitman that North West Community Council request a staff report in response to the Sandy Lake Park petition that was received on September 15, 2014 and include an update on all previous studies in the area.**

#### LEGISLATIVE AUTHORITY

*Halifax Charter:* Part VIII, Planning & Development  
61 (1) The Municipality may acquire and own property granted or conveyed to the Municipality either absolutely or in trust for a public or charitable purpose.

#### *Halifax Regional Plan;*

Pg 28; HRM intends to create additional Regional Parks at various locations throughout HRM including the Blue Mountain - Birch Cove Lakes, Feely Lake, Jacks Lake, Second Lake, and Porters Lake.

Policy E-12 - HRM shall prepare a Greenbelting and Public Open Space Priorities Plan to protect and preserve connectivity between natural areas and open space land, to enable their integration into sustainable community design, to help define communities, to benefit the municipality's economy and physical health of its people and to reflect and support the overall purposes of this plan.

## **BACKGROUND**

The petition and accompanying letter from the Sandy Lake Conservation Association (SLCA) requests the Municipality to consider expanding the park lands at Sandy, Marsh and Jack Lake to create an enlarged park/wilderness area within the Sackville River Watershed.

The Regional Plan calls for the development of a Regional Park at Jacks Lake. The park would be based on the 1000 acres that HRM currently has assembled around Jack, Marsh and Sandy Lake.

The Regional Plan also calls for a Greenbelting and Open Space Plan which will, among other objectives, examine requirements for public open space and the protection of key wildlife and environmental corridors within the municipality.

A watershed study for the Sandy Lake area was initiated by Regional Council. The study has been drafted and has been reviewed by the Regional Watershed Advisory Board. It is expected to be brought forward to North West Community Council in the coming months.

## **DISCUSSION**

As per Council's direction under the approved Regional Plan Five Year Review, staff is currently undertaking the Greenbelting and Open Space Plan. The results, if approved by Regional Council, will guide the municipality as to the direction for the parks and open space system through development regulations, land acquisitions and park development. The Sackville River corridor, which includes the Sandy Lake/Jack Lake/Marsh Lake regional park lands, has been identified as one of several major corridors for examination within that exercise. The possibility may exist to create a recreation and environmental linkage from Bedford Basin to the Pockwork Watershed. Jacks Lake Regional Park is a key element along the potential corridor. Therefore, the request by the SLCA to initiate exploration of the ideas contained in the petition is already underway. The completed plan will be subject to the approval of Regional Council.

As the McCabe Lake area is currently an active rural development area with a number of pre-regional plan development approvals, staff will also be continuing to acquire high value lands in this area through the development process. These will be aimed at contributing to Council's open space objectives of recreation service provision, protection of valued cultural/natural heritage assets and shaping and connecting communities.

## **FINANCIAL IMPLICATIONS**

There are no financial implications at this time related to this petition. The Greenbelting and Open Space Plan is being conducted through capital funding approved by Regional Council as part of the 14/15 Capital budget under account CDG01283.

## **COMMUNITY ENGAGEMENT**

The Greenbelting and Open Space Plan affords the general public and stakeholders the opportunity to be part of the process through public meetings, submissions and focus groups. The letter from the Sandy Lake Conservation Association which accompanied the petition offers to share their thinking on the matter. Staff will ensure that the SLCA will have an opportunity along with other stakeholders to generally engage on the broad matters pertaining to the open space plan but also on this particular corridor early on in the process.

## **ENVIRONMENTAL IMPLICATIONS**

The Greenbelting and Open Space Plan is aimed at contributing to Regional Council's environmental protection objectives.

**ALTERNATIVES**

None

**ATTACHMENTS**

Attachment 1 – General Map of Sandy Lake area with HRM holdings indicated.

Halifax Regional Council  
c/o Tim Outhit  
PO Box 1749  
Halifax, NS  
B3J 3A5

**re: Jack Lake, Marsh Lake, Sandy Lake Park Proposal**

Dear Council Members

We are submitting this letter and the attached petition on behalf of your concerned citizens. We trust that you will see, as we all do, the importance and long term benefits of this proposal. We look forward to your consideration of this proposal.

**Synopsis:**

Jack Lake, Marsh Lake and Sandy Lake are part of the Sackville River Watershed. All three lakes have some level of protection. Jack Lake exists within a regional park zone. One shore of Marsh Lake has a municipal park designation. Sandy Lake is touched by three municipal park lands including the Bedford Lions Sandy Lake Park which has an HRM supervised beach and a popular off leash dog area. Of the three lakes, Sandy Lake is the only one with public access.

The Sandy Lake Conservation Association (<http://sandylake.org/>), SLCA, is proposing that HRM expand the park lands surrounding Marsh Lake and Sandy Lake, and thus create an enlarged park/wilderness area (Jack Lake, Marsh Lake, Sandy Lake) within the Sackville River Watershed. Such an undertaking will improve access to park lands for current residents of HRM, and ensure these lands are available for enjoyment by future generations.

**Background:**

Jack Lake, Marsh Lake and Sandy Lake have been the subject of many past initiatives to create parks within Halifax County, the Town of Bedford, and more recently the Halifax Regional Municipality.

Sandy Lake has been subject to development pressure for many years beginning with the adjacent development of Farmers Dairy. Development pressure continued in the summer of 2013, when a large parcel of land owned by a private developer at the west end of the lake was clear cut. This action surprised members of the Sandy Lake Conservation Association as it was previously understood that said lands were part of a park proposal.

As Sandy Lake is a major water body within the Sackville River Watershed, its health is vital to the ecology of the area. Like most urban lakes, anthropogenic (human) activity impact water quality negatively. Sandy Lake is no different, with the tropic status trending towards worsening water quality. Development pressure is placing the lake and associated wildlife further at risk of accelerating the current negative trend. It is imperative that environmental stewardship is championed to slow and possibly reverse this trend.

**Benefits:**

An expanded Jack Lake, Marsh Lake, Sandy Lake Park will deliver many benefits. We believe the key ones are as follows:

- **Legacy:** An expanded park would protect the fragile ecosystem of Sandy Lake and Marsh Lake, and would ensure future generations have access to a wilderness oasis within HRM. Park planning would ensure that current mixed use (in particular ATV use) would be accommodated in a controlled manner, and that fragile ecosystems would not be damaged.
- **Access:** Jack Lake and Marsh Lake are surrounded by woodland, with limited access for recreational purposes. Sandy Lake has some access through the Bedford Lions Sandy Lake Park. An expanded park presents opportunities for new access points to be developed, improving the recreational infrastructure for the growing populations in Sackville, Bedford, Hammonds Plains, and Kingswood.
- **Healthy Living:** An expanded park presents opportunities to develop an active trail corridor from Sackville through Bedford and Hammonds Plains, and linking up the trail developments at Kearney Lake.

**Support:**

**The Jack Lake, Marsh Lake, Sandy Lake Park Proposal is supported by a broad cross section of residents, as indicated in the attached signed petition.**

**Next Steps:**

**The SLCA has developed detailed thinking regarding this proposal which we are happy to share. We are hopeful that HRM will allocate the funds to review our proposal in detail. We believe that ongoing development pressure in the Sandy Lake area makes this an urgent matter.**

---

**Mike Crosby**

**On Behalf of the Sandy Lake Conservation Association**

## Petition Information

The following information outlines the purpose of the petition.

<b>Title:</b>	<b>Sandy Lake Regional Park</b>
<b>Purpose:</b>	<b>The goal is to develop and expand the Jack Lake Park to encompass the area that includes Sandy Lake as part of a larger park area in a sustainable manner which will conserve the watershed, maintain the natural ecosystems and provide natural recreational opportunities for residents of HRM.</b>
<b>Remedy Sought:</b>	<b>The goal is to have HRM fund the study, development and expansion of the existing Sandy Lake Park with and for the community.</b>
<b>Start Date:</b>	<b>As soon as the study is approved and authorized.</b>

## Organizer Information

Information that uniquely identifies the petition organizer(s).

<b>Full Name(s):</b>	<b>Mike Crosby (on behalf of Sandy Lake Conservation Assoc.)</b>
<b>Civic Address(es):</b>	<b>107 Farmers Dairy Lane Bedford, NS B4B 2C9</b>
<b>Phone or Email:</b>	<b>MikeCrosby@eastlink.ca</b>
